

## About Us

In 1938, Francis A. Taylor, Sr. founded what is now F. A. Taylor & Son, Inc., a full service commercial roofing and sheet metal contracting company. Today, the third and fourth generations of the founder continue to build the company's reputation from two locations, Baltimore, Maryland & Salisbury, Maryland.

The company maintains an active membership role and Board positions with the National Roofing Contractors Association and the Mid Atlantic Roofing Contractors Association which enables the firm to keep abreast with the current national and local industry trends, the ever changing governmental regulations, health & safety issues, technical assistance and new product knowledge.

There is no substitute for the over 70 years of experience & the dedication of the Taylor family and the employees who share the same time-honored commitment to excellence. Continuous workforce training and experienced supervisors promoting quality workmanship and jobsite safety have lead to

F. A. Taylor & Son, Inc. to be a regional commercial roofing and sheet metal contractor of choice.

Roofing is a science.  
Let us build the right roof  
to ensure the success  
of your project.

## Restoration & Replacement

### Restoration & Replacement

F. A. Taylor & Son, Inc. is an approved applicator for the following major roofing materials manufacturers, which enables us to provide comprehensive commercial roofing services: • Firestone Building Products • Johns Manville commercial roof products • Carlisle • GAF • Dow Corning commercial roof products • CertainTeed Roofing Products Group • DaVinci Roofscapes • EcoStar flat roof products • SENTRIGARD Metal Roofing Systems • MET-FAB Manufacturing • Firestone/Uniclad Metal Roof Products • Palmer Asphalt Commercial Roof Products. With this support, we are able to offer our clients a complete menu of commercial, flat roofing and sheet metal systems. Available roofing products include Single-Ply Roofing (EPDM, TPO, PVC), Built-Up and Modified Asphalt Roofing, Garden/Vegetative Systems, Metal Roofing and Wall Systems, Metal Roof Retro-Fitting, Composite Slate Roofing, Expert Roof Repair and Roof Maintenance Programs, "Taylor-Made" to fit your specific roofing requirements.

## Maintenance

### Maintenance

Regular maintenance to commercial flat roofing surfaces help keep the integrity of the roof in-tact longer than an unattended roof. Commercial Roof Maintenance provides: • Greater tenant satisfaction • Fewer leak calls • Increased cost efficiency from your original flat roof installation. We can customize a maintenance plan to meet the specific needs of your property. Call today, we'll start tomorrow.

Well-maintained roofs  
are replaced less frequently.  
Try our regular  
maintenance plan  
and save money.

### Sheet Metal

Our commitment to servicing the needs of our customers is further enhanced by our in-house, state of the art sheet metal fabrication facility. This provides us the ability to custom fabricate standard and specialty architectural sheet metal components, standing seam metal roofing panels, wall panels, flashings and trim that are to be incorporated into our projects in a timely manner.

F. A. Taylor & Son, Inc. is fully licensed, bonded and insured. The company has maintained an active membership role and Board positions with the National Roofing Contractors' Association and Mid Atlantic Roofing Contractors' Association which enables the company to keep abreast with the current local and national industry trends, changing government regulations, health and safety issues, technical assistance and new product knowledge. Our workforce is a dedicated, highly trained group of professionals capable of meeting all roofing and sheet metal construction challenges which may arise in the course of providing our clients... The "Taylor-Made" Roof.
