It Flows When It's Freezing!

You can now have running water 24/7 in below-freezing weather. No more frozen waterlines! Contact Sykes Hollow Innovations, Ltd. for Dealer Pricing!
888 PIRITH (747-4844) or info@pirithose.com

- The PIRIT Hose™: A hose that works in below-freezing temperatures. Maintain a water line 24/7 throughout the winter or use for periodic tasks. **No more lugging water buckets. No more draining hoses.**
- Thermostatically controlled. When plugged in the PIRIT Hose™ automatically turns ON at 45° F or lower and, when on, turns OFF at 57° F or higher.
- Available in 12', 25', 50' and 100' lengths.
- 5/8" hose made with durable 150 psi PVC and quality Nickel-Plated Brass fittings.
- Drinking Water Safe.
- Tested to minus 42° Fahrenheit (minus 41° Celsius.)
- Works with standard 110V GFCI outlet. 100' hose draws only 500 Watts. 50' hose draws only 360 watts. 25' hose draws only 180 watts, 12' draws only 90 Watts.
- Approved by MET Labs, a NRTL (Nationally Recognized Testing Laboratory) to UL (499) and CSA (C22.2 no.72 #E112826) safety standards for heated electronic appliances for outdoor use. For added safety, the PIRIT Hose™ is grounded, end-to-end, including the nozzles.
- One-Year Limited Warranty.
