Contents

Safety Technology International, Inc.

We've been protecting the things that protect you—worldwide—for over 30 years.

About STI

The STI story begins three decades ago with a challenge made by a suburban Detroit school administrator who wanted to stop false fire alarms. Our founder, Jack Taylor, used his expertise in security systems to invent the original Stopper® pull station protector. Today, we distribute 3,000 innovative products that help make homes, businesses and workplaces around the world safe, smart and secure.

Family owned and operated for over 30 years

STI takes great pride in our products and exemplary service. Our entire team works just as hard to make you a satisfied customer as we do to make the world a safer place, one product at a time.

We're happy to customize

STI thrives on a challenge. If you don't see a product in this catalog to meet your needs, give us a call at 1-800-888-4784. We customize products all the time—and meet tight deadlines too.

Worldwide scope with deep local roots

Headquartered in Waterford, Michigan with an office in Redditch, England, the STI team is proud to contribute to our communities through the Rotary Club, Lions International, Mission 500 and more.

Enclosures, Covers & Cages

With STI's polycarbonate covers, environmental enclosures and wire guards, you can reduce costly equipment replacement and repairs and assure operation of life safety devices.

Protect your expensive equipment!

ENVIRONMENTAL ENCLOSURES

These tough polycarbonate enclosures with heater or A/C allow devices to be installed inside or outside in temperatures which exceed normal operating range. Approvals are specific. Dimensions (shown in inches) are approximate. For more precise approvals or dimensions, visit our website at sti-usa.com.

Fire Environmental Enclosures

Protect your pull stations and similar devices located where temperature or environmental conditions exceed the suggested operating range with our tough polycarbonate protective cover fitted with a heater assembly.

Wireless Stopper® Station Shield

Shield takes hard knocks in stride while protecting Stopper Station buttons against vandalism, damage or accidental activation. *Special order, contact STI for ordering information.

- Supervised wireless cover with sound or sound & transmitter.
- When activated, signal is sent to the receiver (requires STI-34104, STI-V34104 or STI-34108 on pg. 35).
- Selectable 65 or 85 dB alert.
- Up to 1000 foot range (line of sight).
- 433MHz
- Optional second wireless transmission for button activation.

STI-6517B	**Cover with Sound and Transmitter**
STI-6517A	**Cover with Sound**
STI-6517	**Cover only**

See buttons page 26

Universal Stopper®

Tough polycarbonate cover protects indoor/outdoor devices. Available in two styles, dome shape or flat low profile. The dome shape is available with or without horn, and flush mount, enclosed flush mount, surface mount or waterproof backbox (Type rating pending). The dome cover offers a red, blue, green, yellow, white and black horn housing with free custom label or no label.

Cover is low profile (less than 4 inches) and has the same footprint as the STI Mini Stopper® but increased interior space accommodates most dual action pull stations.

Dome Cover only:
- with or without 105 dB horn
- colors: red, green, blue, yellow, white or black
- with or without FREE custom label

Mounting options:
- flush
- surface
- enclosed flush backbox
- enclosed backbox with sealed mounting plate
- enclosed backbox with open mounting plate

CUSTOM WIRE GUARDS

Yes, we can make it for you.

If you don't see a product that works for you, give us a call. We'll do our best to meet your needs.

Vandalism & Theft

Every year, vandalism and theft of equipment costs U.S. businesses more than $3 billion. STI products can help reduce theft and vandalism.

This theft could have been prevented!

CCTV Housings

Protective covers help reduce vandalism and damage to CCTV cameras. Aluminum construction includes standard mounting bracket. One version is the sturdy housing unit while a second version includes housing, heater, blower and sun shield.

- Spring assisted forward opening lid.
- Universal Pole Mount Bracket allows CCTV camera housings to be mounted to a pole.

STI-7100K

Standard Model

STI-7000K	Aluminum Housing and Bracket
STI-7100K	Aluminum Housing, Bracket, Heater, Blower & Sun Shield
STI-7081	Universal Pole Mount Bracket

STI-7081

Heavy-duty Model

This heavy-duty housing is constructed out of cast aluminum and has a removable tethered lid. Includes housing unit, blower, lens heater, sun shield and mounting bracket. Sun shield can reduce internal temperature by 4°F (2°C).

- Wire protector mount allows wires to feed through to prevent tampering or damage.
- 24 VAC input with 12 volt DC terminals saves additional wiring and power supply required for 12 VDC cameras.
- Removable tethered lid for easy camera access.

|	
STI-7150K	Cast Aluminum with Blower, Lens Heater & Sun Shield

STI-7150K

CCTV Guard

This guard protects cameras against both vandalism and accidental damage.

- Constructed of tough, 9-gauge steel wire, coated with corrosion resistant white polyester.

STI-9716	9-Gauge Wire Camera Damage Stopper®

STI-9716

Select-Alert Alarm Mini Controller

This highly effective controller alerts of any unauthorized use, theft or vandalism of important devices. The alarm and super bright flashing LEDs offer excellent protection for an array of circumstances and allows the user to choose its function. When activated, the electronic Select-Alert emits an ear piercing siren and the LEDs flash—drawing attention in a hurry.

- Siren offers 32 tones.
- Independent alarm and strobe timing: 15 seconds, 30 seconds, 60 seconds or continuous.
- Can be used as a cabinet alarm, door alarm, link with push button/switch or as a burglar alarm.
- Offers a 100 dB alarm or a softer 85 dB.

STI-SA5000	Available in 5 Colors *

*R-Red, G-Green, W-White, A-Amber, B-Blue

Fire Extinguisher Alarms

Help stop misuse to fire extinguishers, both wall mounted and mounted in a cabinet. Mini Theft Stopper® can also be used to protect a gun cabinet, medicine cabinet or any other door. 9 VDC battery powered.

Wireless Available

For Wall Mounted Extinguishers

STI-6202

Buttons & Switches

Suitable for indoors and out, STI has emergency buttons, round push switches, fire alarm buttons and multipurpose push buttons—many are ADA Compliant.

Our patented design reduces accidental activation.

These ADA Compliant multipurpose push buttons are ideal for general use. The superior design of the buttons and quality construction offer outstanding performance for years to come.

There's an STI Button to fit all your needs:

Visit **sti-usa.com** to order the buttons you need. Select "Products" then "Buttons & Switches" to use the FastFind feature.

Slim Line And Round Buttons

Both buttons have a momentary illuminated push button with a standard 24 VDC long-life LED.

Slim Line – Illuminated

- Button fits in small, narrow areas such as on a door frame.
- Standard 24 VDC LED or a 12 VDC version is also available upon request.
- Uses long-life LED.
- Plastic collar protects switch contacts.
- Form "C" contact rating 30 VDC 5 amps.
- Includes a 5 conductor lead wire for easy connection.
- Standard illuminated momentary button is blue for blue shell and red for green and white shells.
- Custom labeling available. Limited to two lines, eight characters each.

Slim Line Buttons	Available in green, white and blue

Round Momentary - Illuminated

- Form "C" contact rated 10 amps @ 125/250 VAC.
- Measures 4.5 diameter and 1.625 deep (3.45 is depth of button with contacts).

Round Momentary	Available in red, green, and blue

UB-2LENS

Home & Work Series

To help keep you safe, we have a range of products that includes an electronic watchdog alarm, driveway monitors and motion sensors.

With high quality standards, you can rely on STI.

Wireless musical chimes sound a pleasant chime. Can be installed in minutes with no electrician or through the wall wiring. These four musical chimes can work together as one system. Receiver has a low, medium and high volume.

Musical Wireless Chime

Simply mount the button on the exterior of the door and plug the receiver unit into any indoor electrical outlet. 250' range. Plays 13 chimes.

STI-32500	Complete Kit
STI-33010	Additional Doorbell Button
STI-32530	Additional Receiver

STI-32500

Musical Wireless Motion-Activated Chime

Chime sounds when motion is detected. 100' range. Can also be used as an alarm. Plays 13 chimes.

STI-46100	Complete Kit
STI-46010	Additional Wireless Motion Sensor
STI-32530	Additional Receiver

STI-46100

Musical Entry Alert Chime

When a monitored door is opened, unit sends signal to the remote receiver, announcing an entrance with music. Can also be used as an alarm. 150' range. Plays 13 chimes.

STI-32600	Complete Kit
STI-35500	Additional Transmitter
STI-32530	Additional Receiver

STI-32600

Musical Wireless Doorbell Extender

Wireless doorbell chime connects to existing doorbell. Receiver plugs into outlet up to 150' from doorbell to extend sound to hard-to-hear areas. Plays six chimes.

STI-32000	Complete Kit
STI-32530	Additional Receiver

STI-32000

BURGLAR STOPPER® SERIES

The Wire-Free Home Protection System, with user-friendly features, secures the home or office. The system is controlled by a Smart Panel which receives information from wireless sensors placed in various locations. If the Smart Panel detects a security breach, the indicator lights and audible alarms are triggered.

Rex Plus® II Electronic Watchdog

This barking dog alarm will "see" through walls and is smarter. Sounds include: one or two dogs barking, ding, ding/dong or chirp greeting or siren alarm (choice of two).

ED-55

ED-55	Approx. dims: 8.5 H x 4.5 W x 5.5 D
	• 12 VDC or battery operation.
	• He has a detection angle of 150 degrees and an adjustable range up to 26 feet.
	• Easy access controls on top include volume, sensitivity and mute.

The original Rex Plus® Electronic Watchdog

Can see through doors, windows and walls to detect and scare off would-be intruders with real-life sounds of an angry, barking German Shepherd.

ED-50

ED-50	Approx. 6 H x 8 W x 5 D
	• Choice of four sounds.
	• 30' variable distance sensitivity.
	• Adjustable volume control.

Mugger Stopper® Plus

Great for personal protection. With its battery operated 120 dB alarm and strobe light, it helps fend off muggers or can call attention to a fall or injury.

12006

STI-12006	Approx. 3 H X 2 1/4 W X 1 D

Wireless Products

Door alarms, driveway monitors, theft stoppers, motion-activated alarms, and garage sensors all use wireless technology, giving you both freedom and easy installation.

Wireless alarms and alerts as flexible as they are secure.

STI's Wireless Alert Series makes it easy to monitor doors, windows, pools, driveways, mailboxes—without wires!

I talk!

STI-V34104

Wireless Alert Series for home & work use (page 35-36)
Wireless Pro Series for commercial use (page 37)

- Multiple supervised wireless products
- Easy installation, 433MHz
- Up to 1000 foot range (line of sight)
- Supervised battery and signal reception
- Sensors require a Wireless Alert Series Receiver
- Accessories available to extend range (page 37)

Up to 1000' line of sight

Wireless Receivers

Monitor up to eight STI devices.

STI-34104	**4-Channel Receiver**
	• Audible chime tone or 12V 75mA output for siren
STI-34108	**8-Channel Receiver**
	• Form "C" contact for remote monitoring
	• 300mA 12V available for siren output (with 500mA 12V supply)
	• Mirror function (works with up to 4 additional receivers)
STI-V34104	**4-Channel Voice Receiver**
	• Sounds programmable voice messages
	• Offers 10 tones/tunes, 53 selectable words
STI-34098	**Single Slave Receiver**

Stopper II® Heated Enclosure

Enclosure with heater allows addressable dual monitor modules to be installed inside or outside in temperatures below UL Listing limits. Fan runs continuously to maintain a uniform temperature inside the enclosure. Heater unit cycles as required to maintain the correct range of operating temperature.

- For use in areas where temperature or environmental conditions exceed the operating range of addressable manual pull stations.
- Heater unit cycles and fan runs continuously to maintain a uniform temperature inside the enclosure.
- The station cover, when mounted on a smooth surface, provides a rain tight seal similar to a 3R enclosure rating.
- UL Listing does not require standby or secondary power for the 110 or 240 VAC 50/60 Hz heater.

Alert Point

This stand-alone system can be used for a wide range of applications such as fire, intruder, panic, evacuation, assist or general alarm. A cost effective means of raising an alarm in the event of an emergency.

- 102 dB alarm, powered by 9V battery.
- When activated, flag drops into view and red LEDs flash.
- Any external connected devices will be activated.

AP-1-B-E	Blue with EVACUATE Label
AP-1-G-I	Green with EMERGENCY EXIT Label
AP-1-R-A	Red with House/Flame Symbol
AP-1-W-F	White with ASSIST Label

Alert Point: *Lite*

The Alert Point: *Lite* is a simplified version of the above, but still provides an effective means of raising an alarm in the event of an emergency.

AP-2-B-X	Blue
AP-2-G-I	Green with EMERGENCY EXIT Label
AP-2-R-A	Red with House/Flame Symbol
AP-2-W-X	White

Call Point Stopper®

These clear, tough polycarbonate hinged covers retrofit securely over a wide range of electrical switches and call points. The covers prevent misuse to devices without restricting legitimate operation.

STI-6930*	Flush Mount – Red
STI-6931*	Surface Mount – Red

*Color choices -G (Green) -Y (Yellow)

Euro Stopper®

Low profile protective polycarbonate cover is available with or without horn or wireless monitoring. Offered in red, green, blue or yellow to accommodate a variety of applications.
