"The quality of the leads generated at the High-Performance Buildings Show was great. We talked to Energy Managers, Engineers, Property Managers and Owners – all the target audiences for our submetering products. We have signed up for next year's event in Austin and look forward to another great show."

-- Phil Fram VP Sales & Marketing Quadlogic Controls Corp.

HIGH-PERFORMANCE BUILDINGS & WORKPLACES

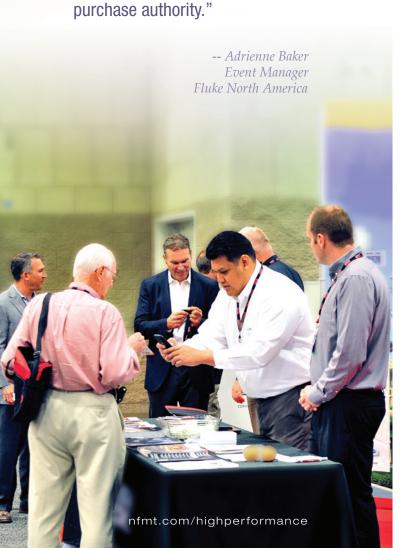

2016 EXHIBITOR PROSPECTUS

MAY 3 - 4, 2016 | AUSTIN, TX

nfmt.com/highperformance

DEAR TRADESHOW DECISION-MAKER:

Driving Your Success

High-Performance Buildings & Workplaces, the niche conference and expo for leaders responsible for the design, construction and ongoing operations of high-performance buildings, returns to Texas May 3-4, 2016. The show will take place at the Austin Convention Center.

If you are looking for a higher level of attendee, with job titles that include "Senior," "Chief," and "Sustainability," then you need be part of High-Performance Buildings & Workplaces. You will want to meet with each person who walks into the exhibit hall — every one of them is a winner.

As a target event, High-Performance Buildings & Workplaces provides a more intimate experience with lengthier, more engaging interactions with all those quality prospects who will be at the show. We even laid out the exhibit hall floor plan to better accommodate the longer discussions. You can see the floor plan layout on the back page of this prospectus.

Why Austin?

In response to those who have asked why we moved the show to Austin from Fort Worth: Austin, one of the most environmentally conscious cities in the United States, is the perfect location for High-Performance Buildings & Workplaces.

It was in Austin in 1990 that Austin Energy Green Building (AEGB) – the nation's first green building program – was created. AEGB is now the nation's most successful sustainable building program and encourages central Texans to design and construct more sustainable homes and buildings.

The City was even selected as the site for the U.S. Green Building Council's first Greenbuild Conference and Expo.

With its ongoing history of sustainability and energy management, it was obvious that Austin is the ideal location for High-Performance Buildings & Workplaces.

To learn more about the show, its attendees and the benefits of exhibiting, please read through this prospectus. You can always call me or your Account Executive (see back page) with questions.

Best regards,

Todd Kotlarek Group Director - Facilities Market 414-228-7701, ext. 577 todd.kotlarek@tradepress.com
